

TOP REASONS WHY NOTHING HAS BEEN DONE

Despite the MPCA's dire warnings going back decades, **no contaminants beneath the landfill or former dump have become a risk** to human health or the environment.

Meanwhile, businesses operate on each site including a Transfer Station, a concrete recycling company and a golf driving range.

The Freeway Property owners refuse to enter the MPCA Closed Landfill Program because they would **lose control of their property.**

Despite meeting with the property owners over decades, the MPCA has resisted finding solutions that remediate the owner's property **in a similar fashion to other brownfield/landfill developments.**
